## F4P LOCK OUT TAG OUT LOCK TECHNICAL DATA SHEET

### PRODUCT DESCRIPTION

This durable, lightweight, highly visible safety padlock has a non-conductive nylon body and a steel shackle. It is a single locking, spring open and close and has a key retaining mechanism.

### FEATURES

- High security dimple key cylinder with up to 100,000 available combinations, covering every situation
- Two keys to each lock are supplied to facilitate retention of a key in a central area (single key options available)
- Body and keys etched with key number as standard, enabling easily matching of separated components
- Key retaining mechanism to avoid the lock being closed without the key
- Nylon body and brass internals show good resistance to caustic and corrosive environments
- Padlocks keyed to your specific requirements - Keyed to Differ, (Master and Differ and Keyed Alike sets are available on request)
- Standard safety/owner label on both sides, engraving or bespoke labels are available on request
- Packs of 10
